

MULTI-STOP CHANNEL AWNINGS

Multi-Stop Channel Awnings can create a relaxed outdoor living area that can be utilised in all seasons. They offer you complete control of the awning point, keeping you cool in the hot summer months by blocking unwelcome sun.

There is an extensive selection of fabrics to choose from including; sunblock, light filtration or semi shade fabrics with translucent properties to help keep your view.

Multi-Stop Channel Awnings can be mounted either between posts or on the face of a window. A key feature of the product is that it can be dropped to any height required to cut sun glare or shade an area whilst still allowing some light.

Multi-Stop Channel Awnings can be operated manually or can be easily motorised.

“ Awnings can enhance the look of your home or business by adding shape, dimension and colour. Awnings save energy and protect furniture, floors and carpets from fading. ”
