

TIMBER PLANTATION SHUTTERS

GENERAL CHARACTERISTICS

Timber Plantation Shutters are lightweight yet very strong. They have a uniform grain for a beautiful stain finish. They are the perfect material for shapes including sunburst, ovals, rectangles & rakes.

Timber Plantation Shutters also have superior gluing and finishing properties providing excellent insulation in the home. Timber Plantation Shutters are available in 63, 89 & 115mm in an extensive range of colours and stains.

ENVIRONMENTAL CHARACTERISTICS

Timber Plantation Shutters are a renewable resource. Careful hardwood forest management ensures free harvesting is done responsibly, balancing wood growth with timber removal. Each year the United States grow about twice as much hardwood as it harvests.
