

# e20 PLANTATION SHUTTERS

**e20 IS CUSTOM MADE & AVAILABLE IN STYLES THAT MATCH EVERY WINDOW IN TODAY'S HOMES.**

e20 is available in 63, 89, 115mm blades for open views. They are ideal for all shapes, sliders & bi-folds. They span 900mm wide. They have Aluminium core in all blades and stiles for added strength and increased stiffness. e20 do not crack, chip, split or warp and are better than timber for fixing.

e20 is a US specified polymer extrusion and is recyclable. Other features include; hypoallergenic, termite-resistant, fire retardant, Non-carcinogenic, moisture/humidity resistant. e20 also has a UV Valspar waterborne paint finish & insulates 70% more than timber.

e20 comes in a variety of colours which include; White, Bright White, Pearl and Custom Colours. e20 has 20 years warranty, which ensures endless shutter performance.
